

STAYWell Housing Program

STAYWell Housing provides permanent supportive housing to homeless youth with mental health disabilities.

This program provides a subsidy so that youth can live in scattered site housing throughout Alameda County. A Housing Specialist and Service Coordinator will provide housing assistance and case management focusing on a range of life goals.

STAYWell is targeting youth who are 18-24 years old, currently lack stable and regular housing, and are diagnosed with a mental illness.

If you have any questions or would like to make referrals please contact: Matt Anderson at 510 706 8475 or email: manderson@abodeservices.org
